

# Flip the Pimp

We have all Flipped the Classroom. How do we Flip Bedside Medical Education and go beyond Pimping our learners? Here are some Techniques to "Flip your Pimping" into spectacular educational experiences for your learners.

Diagnose your learner before you teach  
Sniper not Shotgun- 3-5 careful points no overload  
Top 10 ideas to improve bedside teaching in a busy ED paper  
One Minute Preceptor paper  
Praise the process not just the outcome

We all make mistakes- Embrace them  
Share your mistakes- How and what you learned  
Demonstrate humility, perseverance, courage  
Mistakes are proof that you are trying  
Don't search for the Teachable moment  
Look for the Learnable moment

Connect  
Your  
Audience

Medutainment- Engage and make learning fun.  
Set High Expectations- Learners will rise to bar.  
Embrace Technology- Be brave try new mediums  
Bring SIM to learners- Simulation is a concept not a location

Promote  
Knowledge  
Transfer

Coach  
Not  
Referee

**Coach**  
Constructive Criticism  
encourages  
mentors  
models  
cares  
challenges  
provides vision

**Referee**  
negative feedback  
blows whistle  
Calls Fouls  
Enforcer of rules

Embrace  
Mistakes

Engage  
and  
Inspire

Share your Successful cases  
You are a superhero who saves lives!  
Training the next superhero is exciting!  
Make those around you feel important and better  
Leverage the power of stories  
Be positive, encouraging and engaging
